Technical data sheet

Paint runs through our veins.

Arova Aqua-Toner F 9006

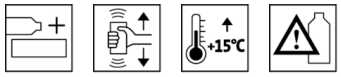
Water-based dyestuff concentrates for **industry** and **trade**

PRODUCT DESCRIPTION

Product numbers	**89154 ff**
General	Water-based dyestuff concentrates for tinting water-based Arova stain systems.
Application area 	Tinting of water-based Arova staining systems according to **ARL 113 – Tinting instructions for Arova staining systems**

PROCESSING

Processing instructions



- Please shake the product before use.
- The temperature of the product and object, and the room temperature must be at least + 15 °C.
- Due to the high concentrations, tinting stains with Arova Aqua toners is only recommended for experienced users.
- Use only in combination with the base materials recommended by ADLER.
- Do not use the product as a stain!
- Please observe our **ARL 113 – Tinting instructions for Arova staining systems.**
- Quantity added to stain:
  Total quantity of Arova Aqua toner: max. 20 % by weight depending on the selected stain system.
- Stir in thoroughly!
- Stains tinted with Arova Aqua toners can be processed as specified in the corresponding technical data sheet.
- Prior to applying the stain and the coating, you should always stain a sample on the original wood and treat it with the intended coating material in order to assess the final colour shade.
- Any change in the processing sequence, environmental conditions, non-observance of instructions or the use of products not listed may have an unfavourable effect on the result. Deviations lead to film and adhesion problems.
