ADLER
Paint runs through our veins.

Arova Solva-Toner P 9031

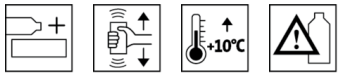
Solvent-based pigment concentrates for **industry** and **trade**

PRODUCT DESCRIPTION

Product numbers	**90300 ff**
General	Solvent-based pigment concentrates for tinting solvent-based Arova stain systems.
Application area 	Tinting of water-based Arova staining systems according to **ARL 113 – Tinting instructions for Arova staining systems**

PROCESSING

Processing instructions



- Please shake the product before use.
- The temperature of the product and object, and the room temperature must be at least +10 C.
- Due to the high concentrations involved, we recommend that the tinting of wood stains with Arova Solva toners should only be done by experienced persons.
- Use only in combination with the stains recommended by ADLER.
- Do not use the product as a stain!
- Please observe our **ARL 113 – Tinting instructions for Arova staining systems.**
- Quantity to be added to stains:
  Total quantity of Arova Solver toner: a maximum of 20 % by weight, depending on the stain system selected.
- Stir in thoroughly!
- Stains tinted with Arova Solva toners can be used as explained in the relevant Technical Data Sheet.
- Prior to applying the stain and the coating, you should always stain a sample on the original wood and treat it with the intended coating material in order to assess the final colour shade.
- Any change in the processing sequence, environmental conditions, non-observance of instructions or the use of products not listed may have an unfavourable effect on the result.
